### **DETAILED ACTION**

- 1 This action is responsive to the amendment filed on February 10, 2006.
- 2 The cancellation of claim 17 is acknowledged. Pending claims are 1-16 and 18-73.
- 3 Based on the applicant's amendment, a new ground of rejection is made in this office action.

### **NEW GROUND OF REJECTION**

#### ***Claim Objections***

- 4 A series of singular dependent claims is permissible in which a dependent claim refers to a preceding claim which, in turn, refers to another preceding claim. Claim 19 is improper because the claim is depending on claim "62". Correction of dependency of claim 19 is required.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Kischka et al. (US 5,500,218).

Kischka et al. (US' 218) teaches a method for protecting skin comprising applying to the hair a composition comprising 30.0g (30 %) of polyethylene glycol with an average molecular weight of 2700 to 4800 (n = 60 to 108) which is higher than 45 and less than 795 as claimed in claim 1 and wherein polyethylene glycol has an average molecular weight of 5600 to 9000 (n = 126 to 204) and is presented in the amount of 5.g (5%) as claimed in claim 2 (see col. 4,

Art Unit: 1751

Example 4) followed by a dyeing composition as claimed (see col. 4, Example 5). Kischka et al. (US' 218) teaches all the limitations of the instant claims. Hence, Kischka et al. anticipates the claims.

*Allowable Subject Matter*

5        Claims 3-16 and 18-73. objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art of record do not teach or disclose the limitations of these claims. Further, the prior art of record do not teach or disclose a process for protecting scalp comprising applying to the hair a pre-treating composition comprising the polymers of the claimed formula (2) and/or (3).

6        Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
